

HHS's National Institutes of Health (NIH) Small Business Innovation Research (SBIR) Technologies Management Using Process Libraries and Electronic Handbooks

(Where Shakespeare Meets Freud)

Demonstration

Dr. Barry E. Jacobs
barry.e.jacobs@comcast.net

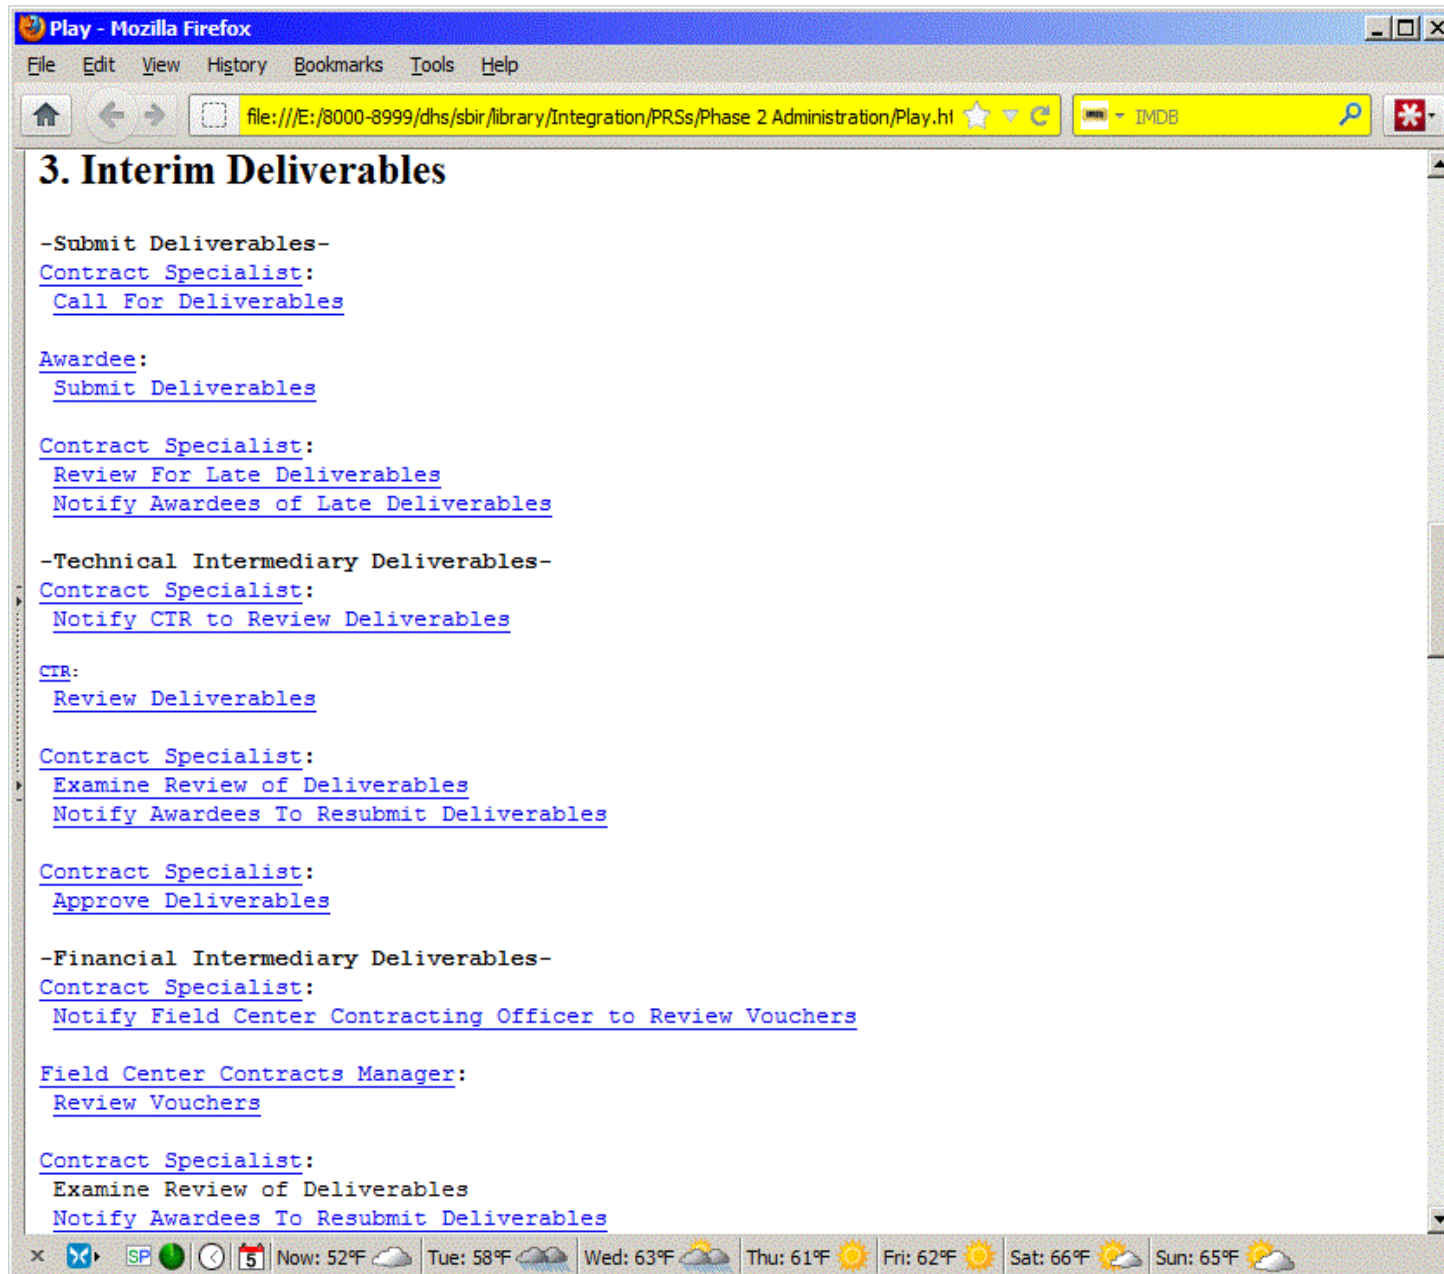

The Bottom Line:

We believe that to truly understand one's universe, one must see it thru multiple “eyes” and also have tools to “communicate” these views.

**To do this, we propose editable and cost-saving process documentation “plays”
for process developers and participants
to help them quickly and effectively learn, integrate, test,
teach, and work together.**

These “plays” may be added to new or existing systems.

Plays describe subprocess execution.

Benefits:

- Facilitates the collection of system and organizational requirements,**
 - Does not anger/upset people whose opinions are heard,**
- and**
- Increases the interaction between managers, process developers, and participants.**

Our basic approach is to wrap organization's subprocesses in a common envelope containing "communication vehicles" that facilitate intra- and inter-organization communication.

Descriptions summarize subprocesses.

The screenshot shows a Mozilla Firefox browser window. The address bar displays the URL: <http://ehbs.org/dhs-sbir/library/Integration/PRSS/Phase 2 Administration/Des>. The page title is "Description - Mozilla Firefox". The browser's toolbar includes buttons for Home, Back, Forward, Reload, and Stop. Below the toolbar is a row of quick links: CNN, New York Times, Washington Post, Comcast, OOWA, NASAFCU, File Hippo, Cnet, Scoreboards, TV Guide, and MapQuest. A Google search bar is also present. The main content area of the browser displays the following:

Phase 2 Administration

Table of Contents

1. [Overview](#)
2. [Play](#)
3. [Documents](#)
4. [Guidelines](#)
5. [Others](#)

1. Overview

In this subprocess, we deal with the process of Contract/Agreement Phase 2 Administration.

Organization: ORG

[All-Files](#). These are all the view files.

[Benefits](#)

2. Play

In this subprocess, the [play](#) is divided in several parts:

The bottom of the browser window shows a Windows taskbar with the system clock at 5:05, the date as Monday, and a weather forecast for the week: Now: Mostly Cloudy, 63 °F; Mon: 73 °F; Tue: 78 °F; Wed: 79 °F; Thu: 78 °F; Fri: 81 °F; Sat: 81 °F.

Plays describe subprocess execution.

Documents describe subprocess data.

The screenshot shows a Mozilla Firefox browser window. The address bar displays the URL: <http://ehbs.org/dhs-sbir/library/Integration/PRs/Phase 2 Administration/De>. The page content is as follows:

3. Documents

In this subprocess, we have the following document types:

- [Registrations](#). These are used to represent user Registrations.
- [Contracts](#). These are used to represent Contracts folders.
- [Deliverables Tables](#). These are used to represent Deliverables Tables.
- [Deliverables](#). These are used to represent Deliverables.
- [Advisors](#). These are used to represent Grant Advisors.
- [Contract-Agreement Modifications](#). These are used to represent Contract-Agreement Modifications.
- [Deliverables Modifications](#). These are used to represent Contract-Agreement Deliverables Modifications.

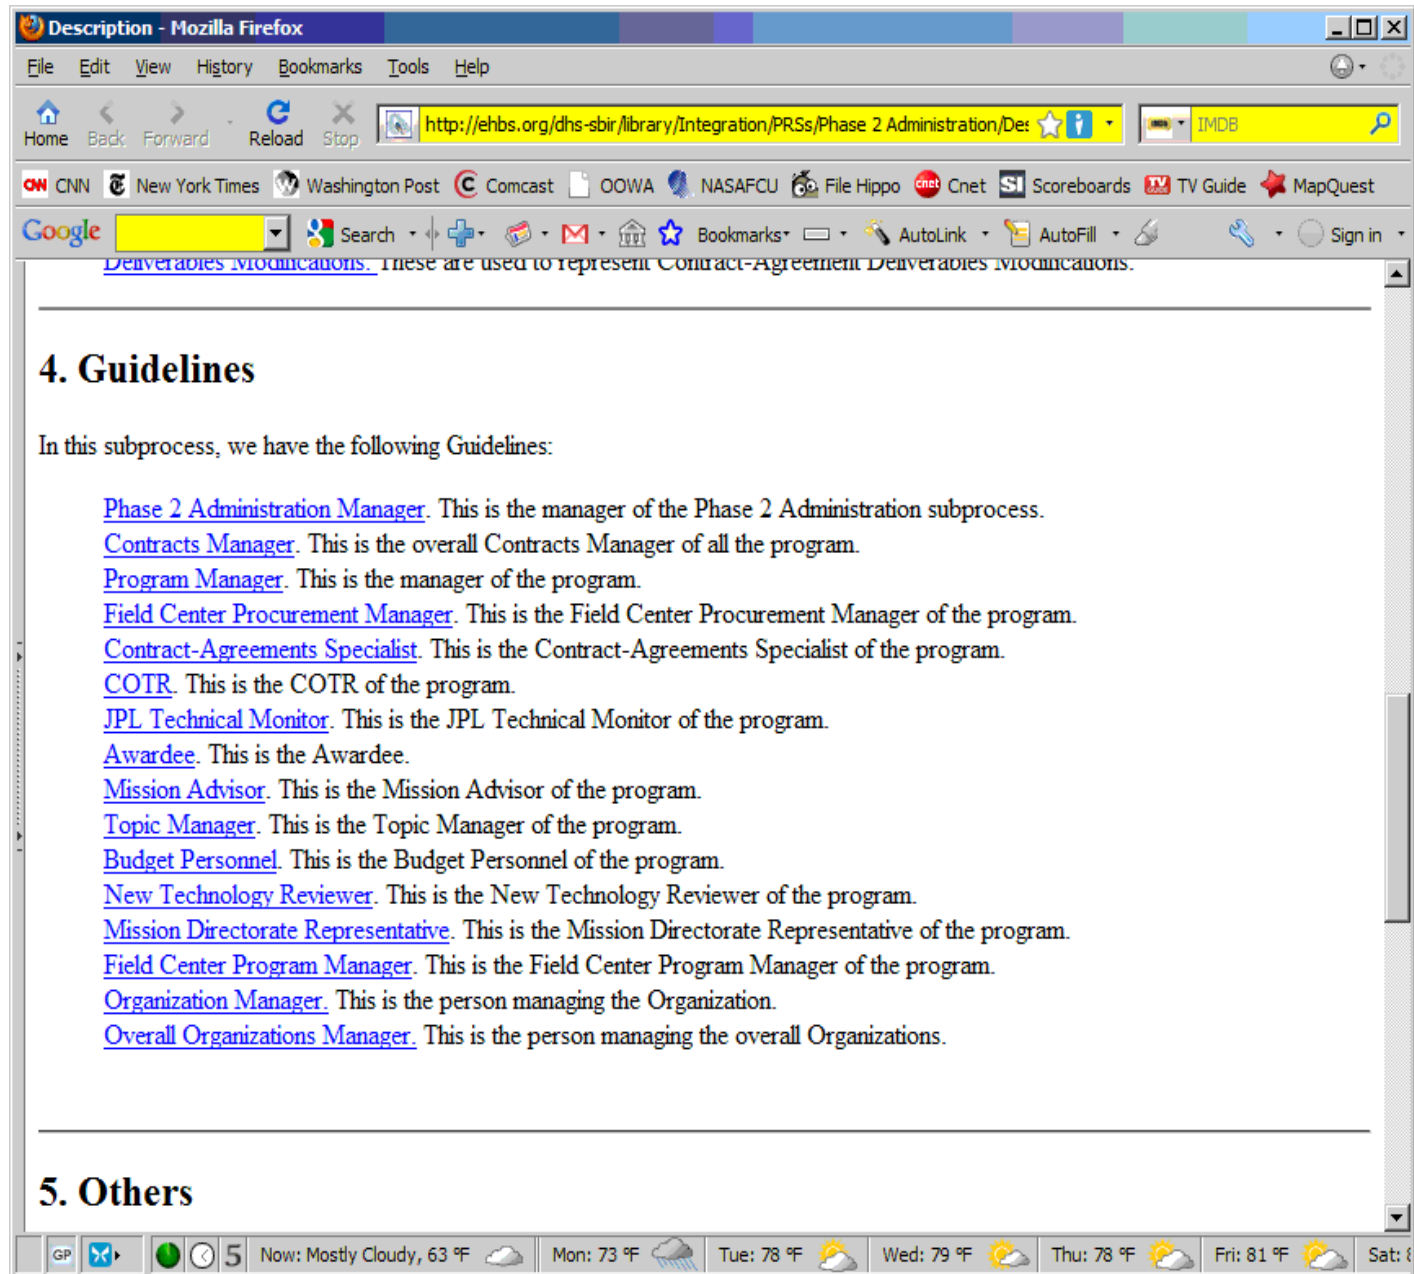

4. Guidelines

In this subprocess, we have the following Guidelines:

- [Phase 2 Administration Manager](#). This is the manager of the Phase 2 Administration subprocess.
- [Contracts Manager](#). This is the overall Contracts Manager of all the program.
- [Program Manager](#). This is the manager of the program.
- [Field Center Procurement Manager](#). This is the Field Center Procurement Manager of the program.
- [Contract-Agreements Specialist](#). This is the Contract-Agreements Specialist of the program.
- [COTR](#). This is the COTR of the program.
- [JPL Technical Monitor](#). This is the JPL Technical Monitor of the program.
- [Awardee](#). This is the Awardee.
- [Mission Advisor](#). This is the Mission Advisor of the program.

The browser's status bar at the bottom shows the current time as 5:00 and the weather as 'Now: Mostly Cloudy, 63 °F'. It also displays a forecast for the following days: Mon: 73 °F, Tue: 78 °F, Wed: 79 °F, Thu: 78 °F, Fri: 81 °F, and Sat: 81 °F.

Guidelines describe user subprocesses.

The screenshot shows a Mozilla Firefox browser window. The address bar displays the URL: <http://ehbs.org/dhs-sbir/library/Integration/PRs/Phase 2 Administration/De>. The page content includes a section titled "4. Guidelines" with the text: "In this subprocess, we have the following Guidelines:". Below this, there is a list of roles and their descriptions, each preceded by a blue underlined link. The roles listed are: Phase 2 Administration Manager, Contracts Manager, Program Manager, Field Center Procurement Manager, Contract-Agreements Specialist, COTR, JPL Technical Monitor, Awardee, Mission Advisor, Topic Manager, Budget Personnel, New Technology Reviewer, Mission Directorate Representative, Field Center Program Manager, Organization Manager, and Overall Organizations Manager. The browser's status bar at the bottom shows the current time as 5:00 and the weather as "Now: Mostly Cloudy, 63 °F".

4. Guidelines

In this subprocess, we have the following Guidelines:

- [Phase 2 Administration Manager](#). This is the manager of the Phase 2 Administration subprocess.
- [Contracts Manager](#). This is the overall Contracts Manager of all the program.
- [Program Manager](#). This is the manager of the program.
- [Field Center Procurement Manager](#). This is the Field Center Procurement Manager of the program.
- [Contract-Agreements Specialist](#). This is the Contract-Agreements Specialist of the program.
- [COTR](#). This is the COTR of the program.
- [JPL Technical Monitor](#). This is the JPL Technical Monitor of the program.
- [Awardee](#). This is the Awardee.
- [Mission Advisor](#). This is the Mission Advisor of the program.
- [Topic Manager](#). This is the Topic Manager of the program.
- [Budget Personnel](#). This is the Budget Personnel of the program.
- [New Technology Reviewer](#). This is the New Technology Reviewer of the program.
- [Mission Directorate Representative](#). This is the Mission Directorate Representative of the program.
- [Field Center Program Manager](#). This is the Field Center Program Manager of the program.
- [Organization Manager](#). This is the person managing the Organization.
- [Overall Organizations Manager](#). This is the person managing the overall Organizations.

5. Others

Subprocess Worksheets facilitate subprocess manager communication with process developers and participants.

Overview of HHS's National Institutes of Health (NIH) Small Business Innovation Research (SBIR) Technologies Process Library

The objective of this tool is to help HHS's National Institutes of Health (NIH) Small Business Innovation Research (SBIR) Technologies Managers (and Staff) to *quickly learn* to build and manage Technologies. We present our approach in five bullets.

- We focus on the documents that HHS's National Institutes of Health (NIH) Small Business Innovation Research (SBIR) Technologies Managers prepare. These documents appear within various subprocesses (e.g., [1](#)) and within multiple organizations (e.g., [2](#)).
- For each subprocess, we create a directory of documents for that subprocess (e.g., [1](#), [2](#)).
- For each document type, we create files to help prepare the document. These files include document overview, organization, related links, structure, references, organization samples, organization contacts, and *sample documents from other organizations* (e.g., [1](#), [2](#)).
- Sample documents have three levels of access: a) Unconditionally Distributable (e.g., [1](#), [2](#)), b) Maintained In Organization Libraries (e.g., [1](#), [2](#)), and c) Proprietary (e.g., [1](#), [2](#)).
- Each organization gets worksheets for its own use. These worksheets also help add to the database as Managers go thru the subprocesses (e.g., [1](#), [2](#)).

For more information on the HHS's National Institutes of Health (NIH) Small Business Innovation Research (SBIR) Technologies Process Library see: [paper](#), [summary](#), and [other process libraries](#).

http://ehbs.org/intro/summary/Telephone Game Syndrome.htm

YouTube Feedback

The "Game of Telephone" Syndrome: Where People Pass-On Only Parts of the "Message"

A group of nine business professionals (seven men and two women) are standing in a line. Each person has a speech bubble above their head that says "View". The speech bubbles are connected by lines to the person's mouth. At the far left and far right of the group, there is a black rotary telephone on the floor. The background is white.

Silver Spring, MD 20902, USA: 54°F Tue: 61°F Wed: 58°F Thu: 51°F Fri: 47°F

Our basic approach is to wrap organization's subprocesses in a common envelope containing "communication vehicles" that facilitate intra- and inter-organization communication.

Shakespeare Meets Freud - Mozilla Firefox 4.0 Beta 3

File Edit View History Bookmarks Tools Help

Shakespeare Meets Freud

Process Libraries (PLs) and Electronic Handbooks (EHBs) are where Shakespeare meets Freud

- **In Process Libraries (PLs), subprocesses are represented as "plays" where "actors" communicate thru the Internet. Each organization puts on its own "productions". For each role, Electronic Handbooks (EHBs) (also called Guidelines) guide "actors" thru their parts. Managers are "directors" using Worksheets as learning/management tools. Documentors serve as "playwrights". [Shakespearean]**
- **Organizations are represented as "families" having "multiple personalities". Subprocess "plays" and its "components" provide communication vehicles between members of the same family, different families, and families from different subprocesses. Documentors also serve as "family therapists". [Freudian]**

Done

The approach uses a modernization of the Socratic Method or Dialogue to gain consensus between Teachers, Documentors, Managers, Implementors, and Participants

Subprocess Life-Cycle Views that are supported.

- **Organization subprocess teachers want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)** Organization subprocess teachers copy relevant organization subprocess Plays/Documents/Guidelines/Worksheets in the Process Library and then learn, integrate, test, and teach their new organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess documentors want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)** Organization subprocess documentors copy relevant organization subprocess Plays/Documents/Guidelines/Worksheets in the Process Library and then learn, integrate, test, and teach their new organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess managers want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)** Organization subprocess managers copy relevant organization subprocess Plays/Documents/Guidelines/Worksheets in the Process Library and then learn, integrate, test, and teach their new organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess implementors want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)** Organization subprocess implementors copy relevant organization subprocess Plays/Documents/Guidelines/Worksheets in the Process Library and then learn, integrate, test, and teach their new organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess participants want to quickly learn, integrate, and perform tasks that are part of their views. (Critical)** Organization subprocess participants study the steps of their organization subprocess view Guidelines.
- **Organization subprocess managers want to quickly monitor execution of tasks that are part of their views.** Organization subprocess managers monitor the execution of tasks using their organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess teachers, documentors, managers, implementors, and participants want to quickly update, test and teach their subprocesses.** Organization subprocess teachers, documentors, managers, implementors, and participants update, test, and teach their organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess teachers, documentors, managers, implementors, and participants want to quickly update, test, and teach using other organization's views.** Organization subprocess teachers, documentors, managers, implementors, and participants update, test, and teach using other relevant organization subprocess Plays/Documents/Guidelines/Worksheets in the Process Library.
- **Organization subprocess teachers, documentors, managers, implementors, and participants become hurt/angry when their views are not supported.** Organization subprocess teachers, documentors, managers, implementors, and participants update, test, and teach their organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess implementors want to quickly update, test and teach tools that help facilitate execution of their subprocesses.** Organization subprocess implementors update, test, and teach tools using requirements from Plays/Documents/Guidelines/Worksheets in the Process Library.
- **Organization subprocess teachers, documentors, managers, implementors, and participants want to quickly leave when their views continue not to be supported.** Organization subprocess teachers, documentors, managers, implementors, and participants archive their organization subprocess Plays/Documents/Guidelines/Worksheets.
- **The Key Human Factor Issue: Communication Within and Across Organizations.** Organization subprocess Plays/Documents/Guidelines/Worksheets in Process Libraries facilitate intra- and inter- organization communication.

Basic People Principles that are supported - Mozilla Firefox

Basic People Principles that are supported.

- **Subprocesses determine tools.** The approach supports people doing their jobs as they see it. Forcing additional tools on people only adds more burdens to their jobs and they will likely ignore them. Additional requirements should be integrated into existing subprocesses.
- **Everyone's subprocesses should be supported as best as possible.** The approach supports people seeing their jobs differently. This is often a good thing for subprocess improvement.
- **Tools are role-based so that data is collected during subprocess execution.** As people partake in the subprocesses, the approach supports data entry in the system. If data collection is done after the fact, the quality of the data generally suffers.
- **Tools are people-based so that users require minimal training.** The approach helps people to determine which steps to use. For each of the substeps (i.e., forms and documents), the approach should have clear templates, instructions, and samples.
- **Tools are web-based so that users can easily partake.** The web-based approach supports the reduced need to install special software on user's computers. This is especially important in the case where the number of participants is large.
- **Everyone helps build the tools.** The approach supports joint ownership in the subprocesses and the underlying systems which is crucial for overall acceptance.

Overview of HHS's National Institutes of Health (NIH) Small Business Innovation Research (SBIR) Technologies Process Library

The objective of this tool is to help HHS's National Institutes of Health (NIH) Small Business Innovation Research (SBIR) Technologies Managers (and Staff) to *quickly learn* to build and manage Technologies. We present our approach in five bullets.

- We focus on the documents that HHS's National Institutes of Health (NIH) Small Business Innovation Research (SBIR) Technologies Managers prepare. These documents appear within various subprocesses (e.g., [1](#)) and within multiple organizations (e.g., [2](#)).
- For each subprocess, we create a directory of documents for that subprocess (e.g., [1](#), [2](#)).
- For each document type, we create files to help prepare the document. These files include document overview, organization, related links, structure, references, organization samples, organization contacts, and *sample documents from other organizations* (e.g., [1](#), [2](#)).
- Sample documents have three levels of access: a) Unconditionally Distributable (e.g., [1](#), [2](#)), b) Maintained In Organization Libraries (e.g., [1](#), [2](#)), and c) Proprietary (e.g., [1](#), [2](#)).
- Each organization gets worksheets for its own use. These worksheets also help add to the database as Managers go thru the subprocesses (e.g., [1](#), [2](#)).

Abstract

In this paper, we show how to provide editable and cost-saving process documentation tools for process developers and participants to help them quickly and effectively learn, adapt, test, teach, and work together. These tools may be added to new or existing systems. We illustrate using HHS's National Institutes of Health (NIH) Small Business Innovation Research (SBIR) Technologies Management. In Section 1, we examine common problems that arise in the management of complex distributed processes. In Section 2, we provide an overview of tools that are solutions to these problems. Simply speaking, we regard subprocesses as "plays" and let organizations put on productions of the "play". In Section 3, we provide examples of these tools. In Section 4, we outline some complex distributed processes in the Federal Government that are applications of the methodology. In Section 5, we conclude with some final thoughts.

0. Introduction

In this paper, we deal with the important problem of managing complex distributed processes involving potentially thousands of participants. An example of such a process is the management of HHS's National Institutes of Health (NIH) Small Business Innovation Research (SBIR) Technologies. HHS's National Institutes of Health (NIH) Small Business Innovation Research (SBIR) is a key ingredient of the Department of Homeland Security. Managing complex distributed processes is difficult due to 1) the complexity of the subprocesses, 2) the diversity of views of different organizations, 3) the diversity of views of teachers, documentors, managers, implementors, and participants taking part in the subprocesses, 4) subprocess Live-Cycle views, and 5) the "Game of Telephone" syndrome.

An outline of the paper is as follows:

In Section 1, we examine common problems that arise in the management of complex distributed processes. In Section 2, we provide an overview of tools that are solutions to these problems. Simply speaking, we regard subprocesses as "plays" and let organizations put on productions of the "play". In Section 3, we provide examples of these tools. In Section 4, we outline some complex distributed processes in the Federal Government that are applications of the methodology. In Section 5, we conclude with some final thoughts.

Before going through the paper, the reader may want to first quickly look at some examples in Figures 3(a)-(p).

- [The Bottom Line: Provide editable and cost-saving process documentation tools for process developers and participants to help them quickly and effectively learn, adapt, test, teach, and work together. These tools may be added to new or existing systems. See \[Quick Summary\]\(#\).](#)
- [Outline of Presentation.](#)
- [Objective: Develop Internet-based tools to support the paperless management of complex distributed processes.](#)
- [Organizations provide different views of the subprocesses, some of which may be proprietary.](#)
- [People in organizations provide different views of the subprocesses.](#)
- [Organizations generate Subprocess Life-Cycle Views.](#)
- [The "Game of Telephone" Syndrome: where people pass-on only parts of the "message".](#)
- [Overview of how editable and cost-saving process documentation tools can solve problems.](#)
- [Solution: Process Libraries maintain organization's views of the subprocesses.](#)
- [Our basic approach is to wrap organization's subprocesses in a common envelope containing "communication vehicles" that facilitate learning plus intra-organization communication.](#)
- [These tools may be focused on during stages.](#)
- [Documents in Process Libraries have three levels of access.](#)
- [For each subprocess, an "Integration View" is the integration or combination of other subprocess views. An "Integration View" facilitates intra- and inter-organization communication.](#)
- [Process Libraries \(PLs\) and Electronic Handbooks \(EHBs\) are where Shakespeare meets Freud.](#)
