

Protestantism Management Using Process Libraries and Electronic Handbooks

(Where Shakespeare Meets Freud)

Summary

Dr. Barry E. Jacobs
barry.e.jacobs@comcast.net

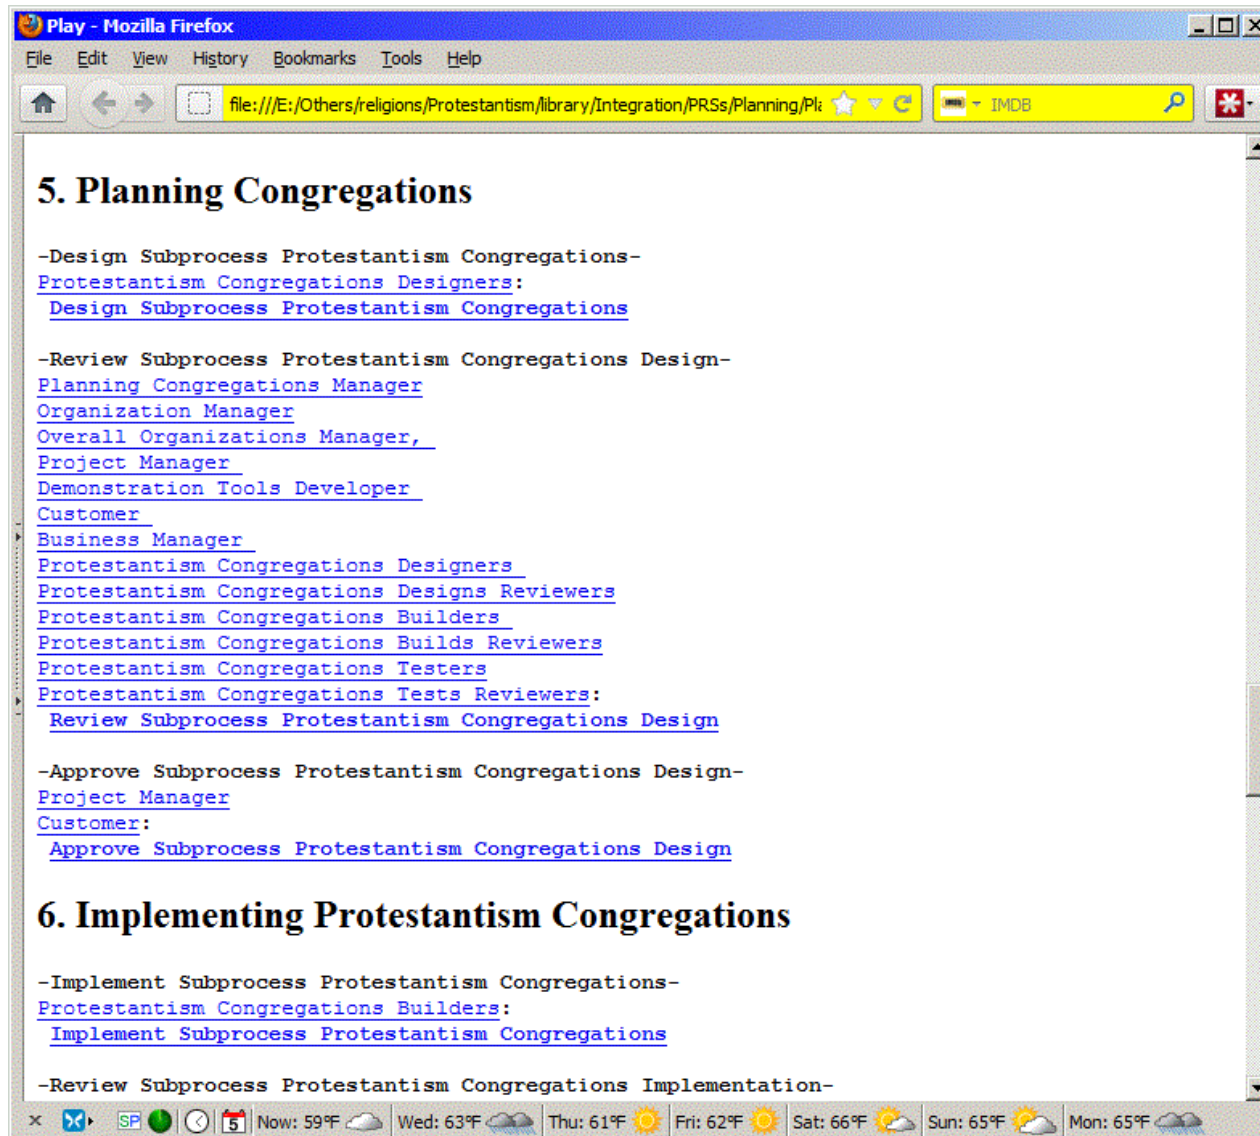

The Bottom Line:

We believe that to truly understand one's universe, one must see it thru multiple “eyes” and also have tools to “communicate” these views.

**To do this, we propose editable and cost-saving process documentation “plays”
for process developers and participants
to help them quickly and effectively learn, integrate, test,
teach, and work together.**

These “plays” may be added to new or existing systems.

Plays describe subprocess execution.

Benefits:

- Facilitates the collection of system and organizational requirements,**
 - Does not anger/upset people whose opinions are heard,**
- and**
- Increases the interaction between managers, process developers, and participants.**

For each subprocess, an “Integration View” is the integration or combination of other subprocess views. An “Integration View” facilitates intra- and inter-organization communication.

All the world's a stage ...

Jaques:

**All the world's a stage,
And all the men and women merely players;
They have their exits and their entrances,
And one man in his time plays many parts,
His acts being seven ages.**

William Shakespeare

As You Like It, Act 2, Scene 7.

The approach uses a modernization of the Socratic Method or Dialogue to gain consensus between Teachers, Documentors, Managers, Implementors, and Participants.

Descriptions summarize subprocesses.

The screenshot shows a Mozilla Firefox browser window with the address bar displaying <http://ehbs.org/Mormonism/library/Integration/PRs/Planning/Description.htm>. The page title is "Description - Mozilla Firefox". The main content area has a heading "Planning Congregations" followed by a "Table of Contents" section with five links: [1. Overview](#), [2. Play](#), [3. Documents](#), [4. Guidelines](#), and [5. Others](#). Below the table of contents, the "1. Overview" section is expanded, showing the text: "In this subprocess, we deal with the process of Planning. This is where Projects plan their Congregations." followed by "Organization: ORG". There are also links for [All-Files](#) and [Benefits](#). The "2. Play" section is partially visible at the bottom, starting with "In this subprocess, the play is divided in several parts:". The browser's status bar at the bottom shows the system clock and weather for various days.

Planning Congregations

Table of Contents

- [1. Overview](#)
- [2. Play](#)
- [3. Documents](#)
- [4. Guidelines](#)
- [5. Others](#)

1. Overview

In this subprocess, we deal with the process of Planning. This is where Projects plan their Congregations.

Organization: ORG

[All-Files](#). These are all the view files.

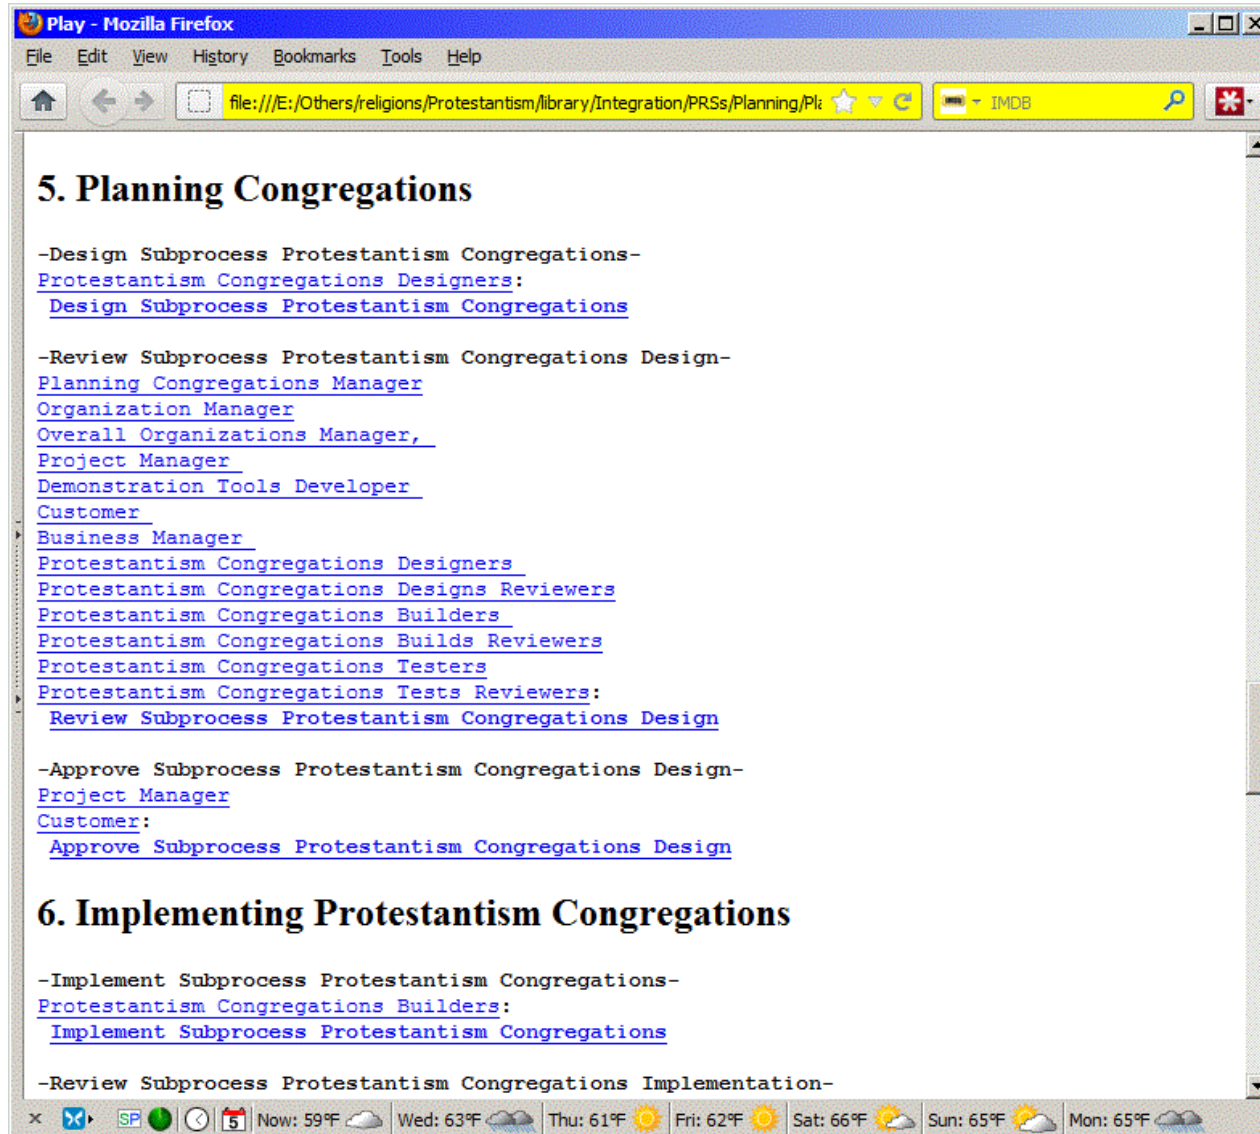

[Benefits](#)

2. Play

In this subprocess, the play is divided in several parts:

GP [System Icons] Now: Sunny, 72 °F Wed: 79 °F Thu: 78 °F Fri: 77 °F Sat: 83 °F Sun: 81 °F Mon: 80 °F

Plays describe subprocess execution.

Documents describe subprocess data.

The screenshot shows a Mozilla Firefox browser window with the address bar displaying <http://ehbs.org/Mormonism/library/Integration/PRs/Planning/Description.ht>. The page content includes a section titled "7. Analysis. This is where reports are generated." followed by a section titled "3. Documents".

3. Documents

In this subprocess, we have the following document types:

- [Demonstration Tools](#). These are used to represent the Demonstration Tools.
- [Congregations Contract](#). These are used to represent the Congregations Contract.
- [Process Library](#). These are used to represent the Process Library.
- [Implementation Plans](#). These are used to represent the Implementation Plans.
- [Congregations Designs](#). These are used to represent the Congregations Designs.
- [Congregations Designs Reviews](#). These are used to represent the Congregations Designs Review.
- [Congregations Builds](#). These are used to represent the Congregations Builds.
- [Congregations Builds Reviews](#). These are used to represent the Congregations Builds Reviews.
- [Congregations Tests](#). These are used to represent the Congregations Tests.
- [Congregations Tests Reviews](#). These are used to represent the Congregations Tests Reviews.

4. Guidelines

In this subprocess, we have the following roles:

- [Planning Congregations Manager](#). This is the person managing the Planning Congregations subprocess.
- [Project Manager](#). This is the person managing the Project.
- [Demonstration Tools Developer](#). This is the person managing the Demonstration Tools Development.
- [Customer](#). This is the customer for the Congregations.
- [Business Manager](#). This is the person managing the procurements for the Development Facility.

The browser's status bar at the bottom shows the current time as 5:00 and the weather for the week: Now: Sunny, 72 °F; Wed: 79 °F; Thu: 78 °F; Fri: 77 °F; Sat: 83 °F; Sun: 81 °F; Mon: 80 °F.

Guidelines describe user subprocesses.

The screenshot shows a Mozilla Firefox browser window with the address bar displaying <http://ehbs.org/Mormonism/library/Integration/PRSS/Planning/Description.ht>. The page content includes links to [Congregations Tests](#) and [Congregations Tests Reviews](#), followed by a section titled **4. Guidelines**. This section states: "In this subprocess, we have the following roles:" and lists ten roles with their descriptions, each preceded by a blue underlined link. The roles are: [Planning Congregations Manager](#), [Project Manager](#), [Demonstration Tools Developer](#), [Customer](#), [Business Manager](#), [Congregations Designers](#), [Congregations Designs Reviewers](#), [Congregations Builders](#), [Congregations Builds Reviewers](#), [Congregations Testers](#), [Congregations Tests Reviewers](#), [Organization Manager](#), and [Overall Organizations Manager](#). Below this is a section titled **5. Others**, which states: "In this subprocess, we have the following other tools:" and lists [Worksheet](#) as a tool. The browser's status bar at the bottom shows the date and time as "Now: Sunny, 72 °F" and a weather forecast for the following days.

[Congregations Tests](#). These are used to represent the Congregations Tests.

[Congregations Tests Reviews](#). These are used to represent the Congregations Tests Reviews.

4. Guidelines

In this subprocess, we have the following roles:

- [Planning Congregations Manager](#). This is the person managing the Planning Congregations subprocess.
- [Project Manager](#). This is the person managing the Project.
- [Demonstration Tools Developer](#). This is the person managing the Demonstration Tools Development.
- [Customer](#). This is the customer for the Congregations.
- [Business Manager](#). This is the person managing the procurements for the .Development Facility
- [Congregations Designers](#). This is the person managing the Congregations designs..
- [Congregations Designs Reviewers](#). This is the person reviewing the Congregations designs..
- [Congregations Builders](#). This is the person building the Congregations..
- [Congregations Builds Reviewers](#). This is the person reviewing the Congregations.
- [Congregations Testers](#). This is the person testing the Congregations..
- [Congregations Tests Reviewers](#). This is the person reviewing the testing of the Congregations..
- [Organization Manager](#). This is the person managing the Organization.
- [Overall Organizations Manager](#). This is the person managing the overall Organizations.

5. Others

In this subprocess, we have the following other tools:

- [Worksheet](#). This is the guidelines for the manager/director.

GP 5 Now: Sunny, 72 °F Wed: 79 °F Thu: 78 °F Fri: 77 °F Sat: 83 °F Sun: 81 °F Mon: 80 °F

Subprocess Worksheets facilitate subprocess manager communication with process developers and participants.

Organizations provide different views of the subprocesses, some of which may be proprietary.

Organizations execute the eight “Play Development” stages.

- 1) summarizing (descriptions),**
- 2) playwriting (outlines),**
- 3) staging (mockups),**
- 4) dress rehearsal (implementations),**
- 5) performance (implementations),**
- 6) evaluations (implementations),**
- 7) revisions (outlines, mockups, implementations),**
- and**
- 8) closing.**

People in organizations provide different views of the subprocesses

**Subprocess
Documentor's
View**

**Subprocess Teacher's,
Manager's, Implementor's
and Participant's Views**

Organizations generate Subprocess Life-Cycle* Views

- **Organization subprocess teachers want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)**
- **Organization subprocess documentors want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)**
- **Organization subprocess managers want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)**
- **Organization subprocess implementors want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)**
- **Organization subprocess participants want to quickly learn, integrate, and perform tasks that are part of their views. (Critical)**
- **Organization subprocess managers want to quickly monitor execution of tasks that are part of their views.**
- **Organization subprocess teachers, documentors, managers, implementors, and participants want to quickly improve, test, and teach their subprocesses.**
- **Organization subprocess teachers, documentors, managers, implementors, and participants want to quickly improve, test, and teach using other organization's views.**
- **Organization subprocess teachers, documentors, managers, implementors, and participants become hurt/angry when their views are not supported.**
- **Organization subprocess implementors want to quickly update, test, and teach tools that help facilitate execution of their subprocesses.**
- **Organization subprocess teachers, documentors, managers, implementors, and participants want to quickly leave when their views continue not to be supported.**

*** Also, called the "Universal Subprocess".**

The "Game of Telephone" Syndrome: Where People Pass-On Only Parts of the "Message"

Overview of how editable and cost-saving process documentation tools can solve problems.

Problem	Solution
Develop Internet-based tools to support the paperless documentation and management of complex distributed processes.	Editable process documentation tools can be tailored to each subprocess.
Organizations provide different views of the subprocesses.	Editable process documentation tools can be tailored to reflect different organization's views of the subprocess.
Organizations execute the eight "play development" stages.	Editable process documentation tools can be tailored to reflect the eight "play development" stages.
People in organizations provide different views of the subprocesses.	Editable process documentation tools can be tailored to communicate different people's views of the subprocess.
Organizations generate Subprocess Life-Cycle Views.	Editable process documentation tools can be tailored to reflect different Life-Cycle views of the subprocess.
The "Game of Telephone" Syndrome: Where People Pass-On Only Parts of the "Message".	Editable process documentation tools can be tailored to layer below different people's views of the subprocess.

Solution: Process Libraries maintain organization's views of the subprocesses.

The screenshot shows a Mozilla Firefox browser window with the title 'Views - Mozilla Firefox'. The address bar displays a file path: `file:///E:/Others/religions/Protestantism/summary/Mock-ups/ViewMainResult...`. The browser's toolbar includes various icons for navigation and search. Below the toolbar, there is a search bar with the text 'shinto temples in US' and a 'Search' button. The main content area of the browser displays a web application interface for 'Views'.

Work Together	Descriptions, Plays, Documents, Role Guidelines/EHBs, Subprocess Worksheets, References, and Credits.	Descriptions, Plays, Documents, Role Guidelines/EHBs, Subprocess Worksheets, References, and Credits.

For each subprocess, an “Integration View” is the integration or combination of other subprocess views. An “Integration View” facilitates intra- and inter-organization communication.

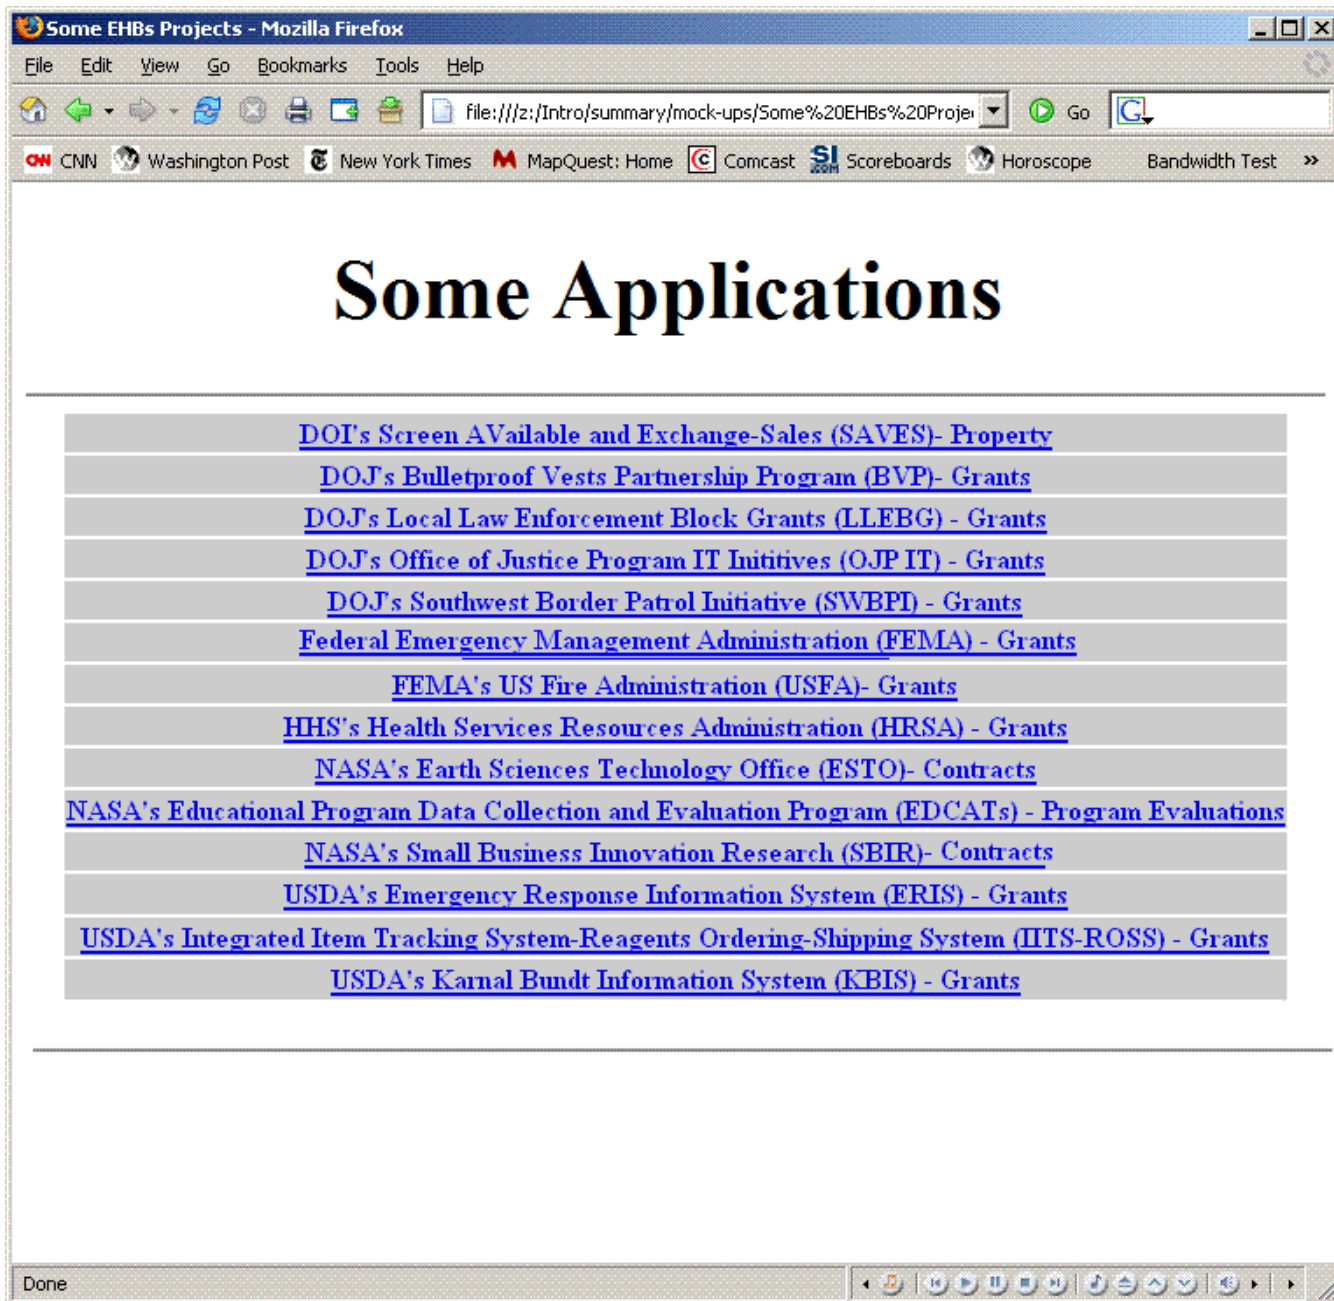

Process Libraries (PLs) and Electronic Handbooks (EHBs) are where Shakespeare meets Freud.

- In Process Libraries (PLs), subprocesses are represented as "plays" where "actors" communicate thru the Internet. Each organization puts on its own "productions". For each role, Electronic Handbooks (EHBs) (also called Guidelines) guide "actors" thru their parts. Managers are "directors" using Worksheets as learning/management tools. Documentors serve as "playwrights". [Shakespearean]
- Organizations are represented as "families" having "multiple personalities". Subprocess "plays" and its "components" provide communication vehicles between members of the same family, different families, and families from different subprocesses. Documentors also serve as "family therapists". [Freudian]

The approach uses a modernization of the Socratic Method or Dialogue to gain consensus between Teachers, Documentors, Managers, Implementors, and Participants.

Subprocess Life-Cycle Views that are supported.

- **Organization subprocess teachers want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)** Organization subprocess teachers copy relevant organization subprocess Plays/Documents/Guidelines/Worksheets in the Process Library and then learn, integrate, test, and teach their new organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess documentors want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)** Organization subprocess documentors copy relevant organization subprocess Plays/Documents/Guidelines/Worksheets in the Process Library and then learn, integrate, test, and teach their new organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess managers want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)** Organization subprocess managers copy relevant organization subprocess Plays/Documents/Guidelines/Worksheets in the Process Library and then learn, integrate, test, and teach their new organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess implementors want to quickly learn, integrate, test, and teach their own views of their subprocesses. (Critical)** Organization subprocess implementors copy relevant organization subprocess Plays/Documents/Guidelines/Worksheets in the Process Library and then learn, integrate, test, and teach their new organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess participants want to quickly learn, integrate, and perform tasks that are part of their views. (Critical)** Organization subprocess participants study the steps of their organization subprocess view Guidelines.
- **Organization subprocess managers want to quickly monitor execution of tasks that are part of their views.** Organization subprocess managers monitor the execution of tasks using their organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess teachers, documentors, managers, implementors, and participants want to quickly update, test and teach their subprocesses.** Organization subprocess teachers, documentors, managers, implementors, and participants update, test, and teach their organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess teachers, documentors, managers, implementors, and participants want to quickly update, test, and teach using other organization's views.** Organization subprocess teachers, documentors, managers, implementors, and participants update, test, and teach using other relevant organization subprocess Plays/Documents/Guidelines/Worksheets in the Process Library.
- **Organization subprocess teachers, documentors, managers, implementors, and participants become hurt/angry when their views are not supported.** Organization subprocess teachers, documentors, managers, implementors, and participants update, test, and teach their organization subprocess Plays/Documents/Guidelines/Worksheets.
- **Organization subprocess implementors want to quickly update, test and teach tools that help facilitate execution of their subprocesses.** Organization subprocess implementors update, test, and teach tools using requirements from Plays/Documents/Guidelines/Worksheets in the Process Library.
- **Organization subprocess teachers, documentors, managers, implementors, and participants want to quickly leave when their views continue not to be supported.** Organization subprocess teachers, documentors, managers, implementors, and participants archive their organization subprocess Plays/Documents/Guidelines/Worksheets.
- **The Key Human Factor Issue: Communication Within and Across Organizations.** Organization subprocess Plays/Documents/Guidelines/Worksheets in Process Libraries facilitate intra- and inter-organization communication.

Basic People Principles that are supported.

- **Subprocesses determine tools.** The approach supports people doing their jobs as they see it. Forcing additional tools on people only adds more burdens to their jobs and they will likely ignore them. Additional requirements should be integrated into existing subprocesses.
- **Everyone's subprocesses should be supported as best as possible.** The approach supports people seeing their jobs differently. This is often a good thing for subprocess improvement.
- **Tools are role-based so that data is collected during subprocess execution.** As people partake in the subprocesses, the approach supports data entry in the system. If data collection is done after the fact, the quality of the data generally suffers.
- **Tools are people-based so that users require minimal training.** The approach helps people to determine which steps to use. For each of the substeps (i.e., forms and documents), the approach should have clear templates, instructions, and samples.
- **Tools are web-based so that all users can easily partake.** The web-based approach supports the reduced need to install special software on user's computers. This is especially important in the case where the number of participants is large.
- **Everyone helps build the tools.** The approach supports joint ownership in the subprocesses and the underlying systems which is crucial for overall acceptance.

Subprocess/Play Developments that are supported.

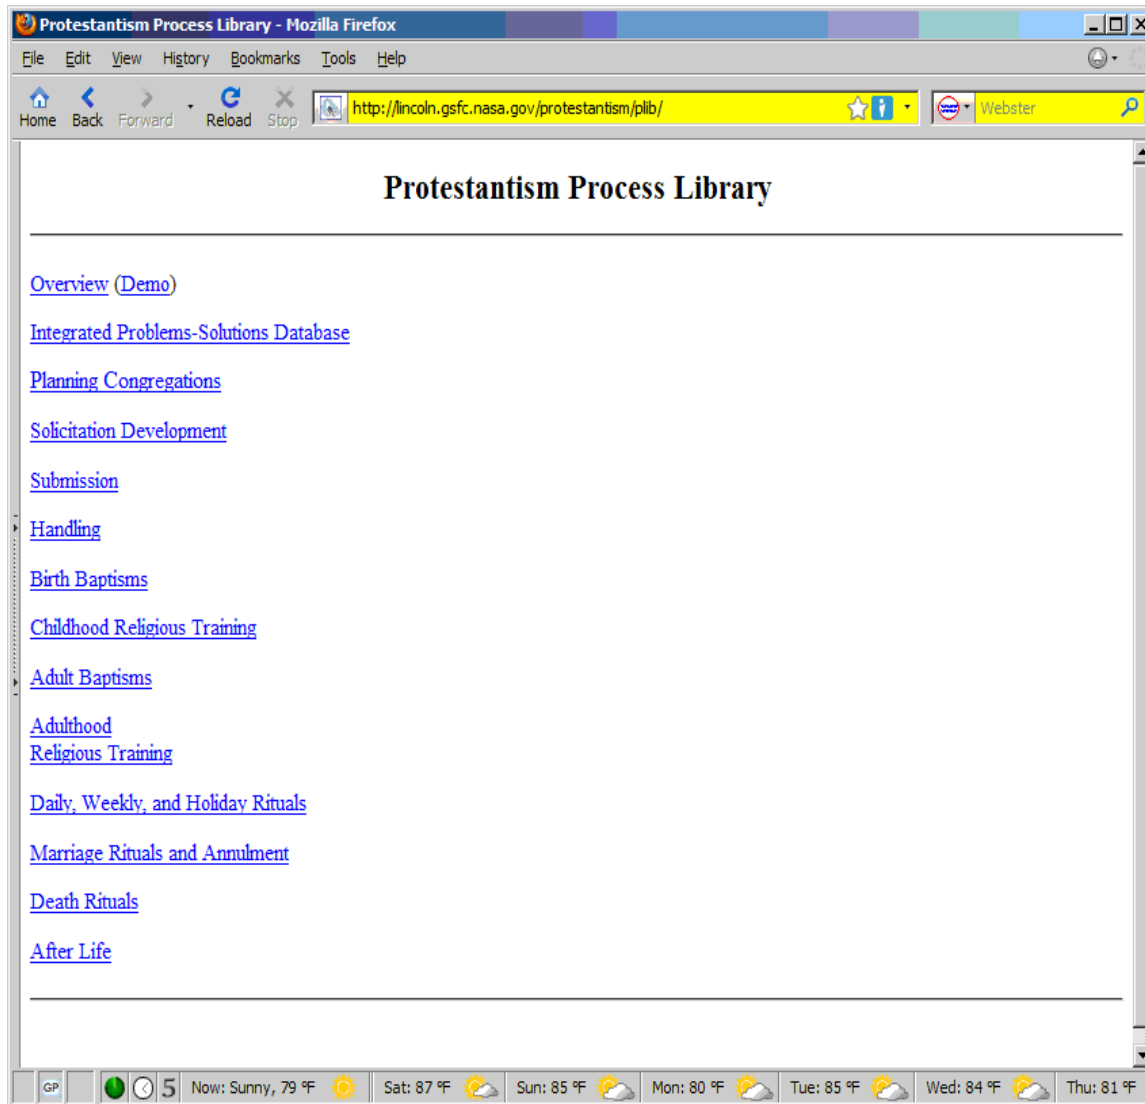

- **Presentation & Paper/Marketing.** The approach supports presentation & paper/marketing using the contents of Descriptions, Plays, Documents, Guidelines, Worksheets, Contacts, References, and Credits.
- **Worksheet/Outlining.** The approach supports worksheet/outlining using the drafting of Descriptions, Plays, Documents, Guidelines, Worksheets, Contacts, References, and Credits.
- **Temporal Flow/Playwriting.** The approach supports temporal flow/playwriting using the drafting of Descriptions, Plays, Documents, Guidelines, Worksheets, Contacts, References, and Credits.
- **Examples/Rehearsal.** The approach supports examples/rehearsals using the mockups of Descriptions, Plays, Documents, Guidelines, Worksheets, Contacts, References, and Credits.
- **Implementation/Staging.** The approach supports implementation/staging using the building of Descriptions, Plays, Documents, Guidelines, Worksheets, Contacts, References, and Credits.
- **Utilization/Performance.** The approach supports users utilization/performance using execution of Descriptions, Plays, Documents, Guidelines, Worksheets, Contacts, References, and Credits.
- **Revision/New Production.** The approach supports revision/new production using updates of the Descriptions, Plays, Documents, Guidelines, Worksheets, Contacts, References, and Credits.
- **Closeout/End Production.** The approach supports closeout/ end performance using storage of the Descriptions, Plays, Documents, Guidelines, Worksheets, Contacts, References, and Credits.

Process Library Operations that are supported.

- **Organization Subprocess Formulation.** The approach supports the introduction of new organizations and their subprocesses into the library.
- **Organization Subprocess Implementation.** The approach supports implementation of common tools for organizations in the library.
- **Organization Subprocess Customer Support.** The approach supports user requests for the library.
- **Organization Subprocess Evaluation.** The approach supports organization subprocess evaluations.
- **Organization Subprocess Update.** The approach supports the updating of organizations and their subprocesses in the library.
- **Organization Subprocess Closeout.** The approach supports the closeouts of organizations and their subprocesses from the library.

Examples

Process Libraries are organized by subprocesses.

View Tools show how organizations view their subprocesses.

4. Guidelines

In this subprocess, we have the following roles:

- [Planning Congregations Manager](#). This is the person managing the Planning Congregations subprocess.
- [Project Manager](#). This is the person managing the Project.
- [Demonstration Tools Developer](#). This is the person managing the Demonstration Tools Development.
- [Customer](#). This is the customer for the Congregations.
- [Business Manager](#). This is the person managing the procurements for the Development Facility.

The browser's status bar at the bottom shows the current time as 5:00 and the weather for the current day (Sunny, 72 °F) and the following days (Wed: 79 °F, Thu: 78 °F, Fri: 77 °F, Sat: 83 °F, Sun: 81 °F, Mon: 80 °F).

Guidelines describe user subprocesses.

The screenshot shows a Mozilla Firefox browser window with the address bar displaying <http://ehbs.org/Mormonism/library/Integration/PRSS/Planning/Description.ht>. The page content includes a list of links and their descriptions, followed by a section titled "4. Guidelines" and another titled "5. Others".

Requirements Capture Tools (RCTs) facilitate subprocess development.

Improvement Tools facilitate subprocess improvement.

Final Thoughts

We believe that to truly understand one's universe, one must see it thru multiple “eyes” and also have tools to “communicate” these views.

All the world's a stage ...

Jaques:

**All the world's a stage,
And all the men and women merely players;
They have their exits and their entrances,
And one man in his time plays many parts,
His acts being seven ages.**

William Shakespeare

As You Like It, Act 2, Scene 7.

Some Effects of Separation

**"Men hate each other because they fear each other;
They fear each other because they don't know each other;
They don't know each other because they can't communicate with each other;
They can't communicate with each other because they are separated from each other. "**

**Dr. Martin Luther King Jr.
September 3, 1957**

Theatre of Dionysus- Athens, Greece
